

Business-Connect™: A Managed Telephone Service for The Enterprise

Rev—180709

Cyclix Network's Business-Connect™ managed telecommunications service is unique in the industry. It empowers the client with an unbeatable patent-pending value combination of integrated telephone services and managed premises-based IP-PBX equipment. **It surpasses hosted VoIP service offerings in the areas of voice quality, security, and feature sets.**

Cyclix Network's Business-Connect™ is a state-of-the-art premises-based business telephone system paired with our unbeatable VoIP service and support, offering the client a no-risk plug-and-play business phone system and telecommunications service, **all at no capital expense.**

Business-Connect™ enables the client to take full advantage of all the features and functionalities that VoIP telephony offers. **Using “on-site intelligence”, Business-Connect™ resolves the issues of Quality of Service (QoS), security, corporate firewall inter-operation, and limited feature sets, commonly associated with most hosted VoIP telecom services.**

Cyclix Network's industry leading redundant N-Plus™ architecture ensures your ability to communicate with your customers at all times. In addition, failover features with the Business-Connect™ provides connectivity and backup to alternate phone numbers in the event your IP network is not available.

Overview:

Each Business-Connect™ telephone extension allows you to dial with total freedom:

- **Cyclix offers several per seat billing arrangements—Business-Connect™ can be configured based on customer requirements with no hidden fees or surprises.**
- **No limit to the number of DID or Toll Free 800 numbers you can add to the plan**

- **The complete Business-Connect™ phone system is bundled with the service, at no capital expense.**
- **Business-Connect™ goes beyond phones**—we also integrate SIP-based intercoms/lock-control, and paging systems

The innovative design of Business-Connect™ solves all the voice quality and scaling problems associated with hosted VoIP services. Yet, at that same time it allows the enterprise to eliminate up front PBX and telephone handset capital expenses.

With Business-Connect™ the customer realizes significant cost savings on usage and the outsourcing of technology and maintenance, while experiencing all the power and advantages of a modern VoIP-based system, fully managed for you by Cyclix Networks.

How the Program Works

The Business-Connect™ program realizes some basic goals...

A Full VoIP Solution—The Business-Connect™ system is just the beginning of the advantages you will receive. Business-Connect™ is tightly integrated to Cyclix Network's industry unique N-Plus™ network. With Cyclix Network's N-Plus™ network, your phone service is truly 99.999% up, 24 hours a day, 365 days a year. This is then all tied together with a 100% no-risk support arrangement.

Support—The Business-Connect™ program is designed to allow Cyclix Networks and the assigned onsite Business-Connect™ installer to solve and maintain all your telecommunications needs, from the handset, to the telecommunications network. You simply use the service. You are 100% covered.

No Capital Expense—No longer will you have to settle for expensive PSTN Centrex services, or inferior hosted VoIP services. With SxP™, Cyclix has removed the large capital expense associated with acquiring and deploying a real premises-based IP-PBX solution and VoIP phones.

By bundling the PBX and telephones with the service, any business can now have all the features and advantages that a premises-based telecom system solution offers.

Business-Connect™ arrives from Cyclix Networks fully integrated, preconfigured and tested. The Business-Connect™ installer then handles all installation, hook-up, and powering of your Business-Connect™ system.

In summary, Business-Connect™ provides—

1. Premises-based corporate IP-PBX and advanced VoIP phones
2. Integration with Cyclix Network's industry unique and patent-pending N-Plus™ VoIP telecom network & services
3. Complete support by Cyclix Networks
4. All at no capital expense

Contact Cyclix today at sales@cyclixnet.com or 603-273-9292 option 2 and get started, with **no capital expense**.
